Project Option 2 – Haiperku
Experience and Interaction

Haiperku Concepts

I have always been fascinated by outer space and the elements that create it. We are all tiny pieces of organic matter in contrast to how large our universe is – in essence, we don't matter. However, as a human civilization, we still believe that we are the center of the universe. My haiku is inspired by this thought.

Background:

The backgrounds of my screens can either be still pictures, or can be moving gifs, such as the stars twinkling. I plan to have an interactive element in the form of movement. If my background is standstill, I plan to have the lines of my haiku fly in one by one. If the background is an animated gif, I will have my haiku text be standstill.

Links: I plan to use different text colors to signal out key words that serve as links.

Below are my rough sketches for the final project in sequential order:

The Initial Haiku:

*We are all made of dust
We are the stars
Spun into being*

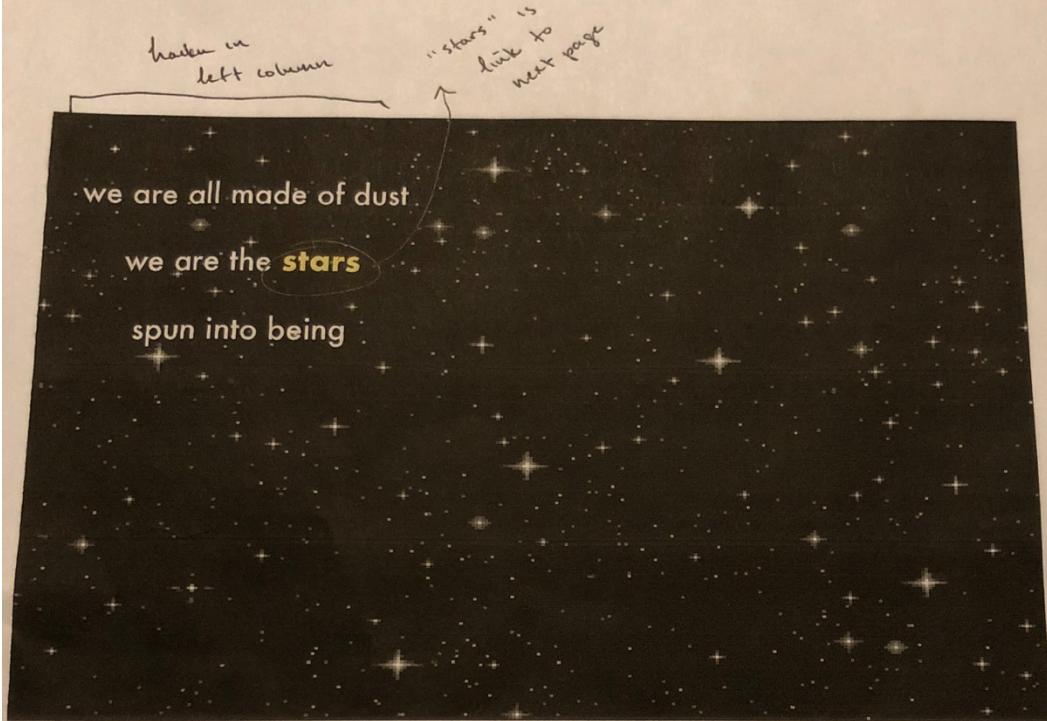

*We are all made of stars
We are the galaxies
Spun into being*

*We are all made of galaxies
We are the universe
Spun into being*

Designed for laptop

1348 x 700 px

HOME PAGE

* - gif background? Background that stars are twinkling
in? → possibility to look into

- words of haiku fly in line by line → possibly complicated code

links

i) "stars" → links to Page 2

Designed for laptop
1348 px by 700 px

PAGE 2

we are all made of **stars**

→ links to home page

we are the **galaxies**

→ links to page 3

spun into being

-written in right column

links

1) "stars" → links to homepage

2) "galaxies" → links to page 3

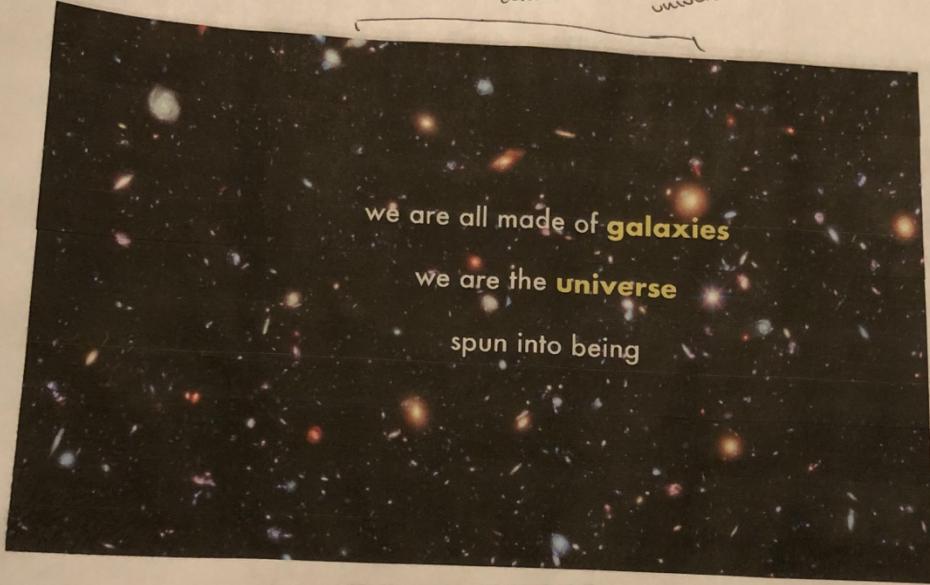

background → moving background of galaxy spinning → possibly ~ gif?
possibility to look into

lines of hairpin fly in one by one

Designed for laptop
1348 px by 700 px

PAGE 3

Marker in
center → "center of
universe"

links:

- 1) "galaxies" → goes to previous page → page 2
- 2) "universe" → goes to home page

~~weeds~~ fly in line by line

- 1) ~~we~~ we are all - - . ↴
- 2) we ar the universe ↴
- 3) spun into being ↴

background → moving universe?
elements in background in motion → possibility.
